*” My time abroad at City University of Seattle was one of the most inspiring experiences of my life. I truly enjoyed living in a vibrant city like Seattle, where I could immerse myself in the perfect blend of stunning nature, modern city life.  
At university, I loved the international atmosphere in smaller classes, which fostered meaningful exchanges and collaborative project work. The continuous assessment system, with assignments spread throughout the semester instead of a single final exam, felt far more effective than the traditional approach in Germany. I am incredibly grateful for this experience and the unforgettable moments I had. This time abroad helped me grow both personally and academically. ”*
